

AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claims 1-6 and 8 (cancelled).

Claim 7 (currently amended): [[The]] A method according to claim 6 of controlling a printing apparatus which needs to periodically execute maintenance operation after activation, said printing apparatus having counting means, operated by power supplied from a battery, for counting time on the basis of an internal time, further the method comprising:
setting a flag in a register when a battery abnormality has occurred in said counting means;
determining whether the battery abnormality has occurred based on the status of the flag set in said flag setting step;
refreshing the internal time with a predetermined time when the battery abnormality has occurred based on the result from said determining step;
designating execution of a maintenance operation on the basis of the internal time;
and
clearing the flag after said refreshing step.
